

4. pielikums

Maģistra studiju programma "Matemātika" Matemātikas katedras docētāju publikācijas 2003./2004. studiju gadā

A. Gricāns, V. Starcevs. Lebeģa mērs un integrālis. Daugavpils, DU izdevniecība "Saule", 2004.

A. Gritsans, F. Sadyrbaev. The Taylor series expansion coefficients of solutions of the Emden - Fowler type equations. P. 20. Book of Abstracts of the 9th International Conference "Mathematical Modelling and Analysis", May 27 - 29, 2004, Jurmala, Latvia.

<http://www.mma2004.lv/>

I. Jermačenko. On solutions of the Emden-Fowler type equation. P. 68. Book of Abstracts of the 9th International Conference "Mathematical Modelling and Analysis" (May 27-29, 2004, Jurmala, Latvia).

<http://www.mma2004.lv/>

J. Azareviča, V. Beinaroviča, I. Jermačenko. Matemātikas bilingvālās mācīšanas metodika. R.: Apgāds SI, 2004.

A. Semjonova, M. Skīvele. Развитие познавательной самостоятельности на уроках математики средней школы. Matemātikas mācīšana: vēsture un perspektīvas. 5. starptautiskās zinātniskās konferences materiāli, Liepāja, 66.-67. lpp.

F. Sadirbajevs. Two-point nonlinear boundary value problems: quasilinearization and types of solutions. P. 54. Acta Societatis Mathematicae Latviensis, Abstracts of the 5th Latvian Mathematical Conference, 6-7 April, 2004, Daugavpils, Latvia.

<http://www.de.dau.lv/matematika/lmb5/>

A. Gricāns, F. Sadirbajevs. The Taylor series expansion coefficients of solutions of the Emden - Fowler type equations. P. 32. Abstracts of the 5th Latvian Mathematical Conference, 6-7 April, 2004, Daugavpils, Latvia.

<http://www.de.dau.lv/matematika/lmb5/>

I. Jermačenko. Multiple solutions of Sturm-Liouville type boundary value problems. P. 61. Acta Societatis Mathematicae Latviensis, Abstracts of the 5th Latvian Mathematical Conference, 6-7 April, 2004, Daugavpils, Latvia.
